

Ransomware is coming for you!

There is a ransomware attack every

14 seconds¹

6,000

individuals or companies become ransomware victims each day.¹

32%

of businesses infected by ransomware lose data access for days or more.²

STOP

ransomware in its tracks

- ! Don't open suspicious emails
- ! Don't click on suspicious links or attachments
- ! Don't visit sketchy websites
- ! Don't download "free" software

The insidious nature of ransomware infections

Ransomware infections rely on **YOU** to help them do their damage.

- Your trusting nature: trust, but verify!
- Your curiosity: just don't click!
- Your desire to save: pay for credible software!
- Your internet surfing abilities: stick with official websites!

Ransomware is lurking around your industry³

- ▶ Professional services
- ▶ Manufacturing
- ▶ Public administration
- ▶ Healthcare
- ▶ Information technologies
- ▶ Mining and utilities
- ▶ Retail

SEVEN PROACTIVE WEAPONS

against ransomware
